

Life

Life

What it is? What it is?

Living

What does it means? What do you mean?

I stand in the night sky counting the stars

Trying to understand why I am here

Come on and hold my hand,

Because I'm afraid to see the reality

People

Staring at me, but I don't want them to see

Friends

Please help me, 'cause I want to be free

I want to hear their opinion, but I just hear their lies

I try to change them all, but there's a distance 'till the sky

Come on and ...

Love

What it is, what it is

You said

I am the one, but now you are gone

Sitting among my walls, head in my hands

Trying to understand, why I lost have a friend

Come on and...
